ANNA SUZIOVA

PRODUCT OPERATIONS MANAGER | PRODUCT & PROGRAM MANAGEMENT

Remote | Email: suziovaanna@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Product Operations and Project Management professional with 6+ years of experience building operational processes, coordinating cross-functional teams, and delivering digital products across EdTech, e-commerce, and content-driven businesses. Experienced in designing and implementing end-to-end workflows from scratch, establishing operational standards, documenting processes, introducing structured experimentation practices, and coordinating product launches across Marketing and Engineering. Strong background in Agile/Scrum, Jira, Confluence, product delivery operations, and product analytics. Master's degree in Linguistics and experience with international digital products.

CORE COMPETENCIES

Product Operations & Process Design • Product Delivery & Launch Coordination • Cross-functional Stakeholder Management • Workflow Documentation & Standardization • Agile/Scrum • Sprint & Dependency Coordination • User Testing & Product Discovery • HADI Cycles & Experimentation • Product Metrics & Reporting • Process Improvement

PROFESSIONAL EXPERIENCE

LionStory | Project Manager

November 2019 – December 2023 · DTC e-commerce

- Built and implemented an end-to-end product production process from scratch, defining workflows, responsibilities, and operational standards.
- Documented and formalized the production workflow, creating a structured process adopted by the team.
- Coordinated product launches with Marketing and Engineering, aligning deliverables, timelines, dependencies, and launch requirements.
- Coordinated production of marketing materials alongside the books, working with designers and illustrators.
- Managed product development and delivery in two-week Scrum sprints, coordinating priorities and timelines in Jira.
- Established quality checkpoints and reviewed illustrations, layouts and copy against briefs before release.
- Coordinated designers, developers, illustrators, editors, and content specialists across international product launches.
- Delivered 20+ personalized book products for the US, EU and UAE markets; contributed to a 60% reduction in time-to-market; the books won Creative Child Magazine Product of the Year (2022) and Book of the Year (2023) awards.
- Ran funnel analytics, located drop-off points and took winning hypotheses to production, including an onboarding quiz and a second-book offer (+23% average order value).

Nasledie.digital | Product Marketing Manager

April 2024 – January 2026

- Designed and implemented a structured user testing process from scratch, establishing workflows for collecting, analyzing, and incorporating user feedback into product development.
- Introduced HADI-cycle methodology across the Product team to establish a structured, hypothesis-driven approach to product experimentation.
- Coordinated the ongoing execution and repeatability of HADI cycles, supporting consistent adoption of the methodology across the team.
- Conducted user research and customer interviews; analyzed product usage, feedback, and engagement patterns to identify improvement opportunities.
- Automated processing of user test results with GPT.
- Collaborated with Product, Marketing, and other stakeholders to align product initiatives with user needs and business objectives.
- Supported product discovery and MVP initiatives, translating research findings into actionable product and marketing recommendations.

Hyperskill | Online Bootcamp Coordinator

May 2025 – November 2025

- Coordinated delivery of an AI Engineering bootcamp, managing schedules, learning activities, and communication across instructors, students, and program stakeholders.
- Organized operational workflows for webinars, learning modules, project deadlines, and hackathon activities.
- Maintained program documentation, schedules, and task tracking in Notion and Jira.
- Coordinated program milestones and addressed operational issues to support timely delivery and clear stakeholder communication.

Multifoto | Project Manager

March 2026 – July 2026 · DTC e-commerce

- Coordinated development and launch of a personalized children's book product, aligning product, content, design, and development activities.
- Coordinated production of marketing materials for the launch alongside the books.
- Structured the product development workflow, defining milestones, deliverables, and approval stages.
- Coordinated stakeholders around product requirements, launch priorities, and delivery timelines.
- Supported feedback collection and translated insights into actionable product improvements.
- Implemented and optimized operational workflows using Bitrix24 to improve process visibility and coordination.
- Built a funnel analytics script and dashboard with Claude.
- Removed a pre-payment approval step, cutting the median production cycle from 5.4 to 1.5 days and the time from request to payment from 11.4 to 4.1 days.

TOOLS

Jira • Confluence • Notion • Trello • ClickUp • Bitrix24 • Google Sheets • SQL (basic) • Looker Studio • Miro • Figma
